Red Rice's.

TUESDAY, JULY 22. RED RICE'S further weather suggestions.

Don't worry; it is largely worry that wears. As Red Rice's there is no worry.

The stock is clean and sweet, being kept in perfect order.

The stock consists of about everything wanted in house furnishing or keeping.

The prices range lower than at any other place in America.

There probably was never before gathered together such a vast variety of every thing wanted by mankind.

Red Rice's is a veritable curiosity shop.

The customers are gentlemen and well-to-do people who will not be troubled by anything they see.

But they will cheerfully show you anything in the store.

For life is worth the living here, if you don't worry.

Among the millions of items at Red Rice's we name:

Ice-cream Freezers, \$2.

Best made Hammocks, all complete (new) for \$10.

Parlor set, 3 pieces, for \$10.

Rattan Parlor, a piece, for \$15.

Rattan Bed, 3 pieces, for \$11.

The improved Union Chair, No. 2, for \$5; good new.

If today should be the last this is more than you will need, but should the weather be what it may you will be ever welcome at RED RICE'S mart.

Trade, 143 and 145 S. Main st., or at the branch store, 429 and 428 S. Spring st.

Address: Telephone No. 39.

THE DULUTH REGATTA

Oarsmen Contesting for Coin and Glory.

The Professional Double-scul and Magificent Race.

Gaudaur and Teemer Cross the Line Winners by Four Lengths.

Other Sporting News—A Day on Eastern Diamonds—Sunol Does a Mile in 2:15 at Detroit.

By Telegram to The Times.

DULUTH (Minn.), July 21.—[By the Associated Press.] Thousands of spectators were present at this first day of the great regatta. Weather and water were in perfect condition.

In the junior singles the contestants were Nettleton of the Minnesotas, Henderson of the Chicago Catlin Club and Thompson of the Winnepes. Nettleton won by two lengths in 10:19.

Thompson second, Henderson third. The junior four-oared race resulted: Winnepes first, Duluth second, Minnesotas third, Lurline fourth, St. Pauls fifth. The judges' boat unfortunately ran too close and the St. Pauls had to back water. This delayed them several seconds just after the turn and this, added to the fact that the Lurline and Duluth fouled, caused the judges to decide that the race must be rowed again.

The junior double was very unsatisfactory. It was won by six boat lengths by the Catlin Club of Chicago, the Minnesotas second. During the last half the Catlins had a lead of ten lengths, and were taking it extremely easy, while Wright of the Minnesotas appeared exhausted. The Lurline stopped rowing three-eighths of a mile from the finish. The Catlin's time was 11:01.

The great professional double was a magnificent race. It was a two-mile struggle, the winning crew to get \$1000, second \$500 and third \$250. Gaudaur and Teemer were nearest the shore, Teemer and Hosmer next, Hanlon and Wix next, and Hamm and Ten Eyck next. There was some delay in giving the signal, but when the shot was finally fired every man dipped and with wonderful unanimity, the stroke of Gaudaur and McKay soon told, and they forged ahead of Teemer and Hosmer, first a quarter, then a half, then a full length. The crews followed one another quite closely in the order from the shore, Gaudaur and McKay pulling forty-two strokes to the minute, the others thirty-six. Gaudaur and McKay were first to make the turn, but were quickly followed by Hosmer and Teemer, then Hamm and Ten Eyck, and finally Hanlon and Wix.

Swiftly to the finish Gaudaur and McKay led Hosmer and Teemer three lengths. The latter kept three-fourths of a length ahead of Hamm and Ten Eyck, who kept the same distance ahead of the Toronto crew. Gaudaur's crew shot across the line amid the screaming of whistles and about four lengths ahead of the others. The efforts of the last two crews to pass Hosmer were unavailing, although there was but a quarter of a length between Teemer and Hamm, and also between Hamm and Hanlon, at the finish. Hanlon and McKay led Hosmer and Teemer three lengths. The latter kept three-fourths of a length ahead of Hamm and Ten Eyck, who kept the same distance ahead of the Toronto crew. Gaudaur's crew shot across the line amid the screaming of whistles and about four lengths ahead of the others. The efforts of the last two crews to pass Hosmer were unavailing, although there was but a quarter of a length between Teemer and Hamm, and also between Hamm and Hanlon, at the finish. Hanlon and McKay led Hosmer and Teemer three lengths. The latter kept three-fourths of a length ahead of Hamm and Ten Eyck, who kept the same distance ahead of the Toronto crew. Gaudaur's crew shot across the line amid the screaming of whistles and about four lengths ahead of the others. The efforts of the last two crews to pass Hosmer were unavailing, although there was but a quarter of a length between Teemer and Hamm, and also between Hamm and Hanlon, at the finish. Hanlon and McKay led Hosmer and Teemer three lengths. The latter kept three-fourths of a length ahead of Hamm and Ten Eyck, who kept the same distance ahead of the Toronto crew. Gaudaur's crew shot across the line amid the screaming of whistles and about four lengths ahead of the others. FOR PEOPLE "ON THE WING."

Persons leaving the city for the summer may have THE TIMES sent by mail to any postoffice address by leaving orders at the office with the messenger in advance. Those at the seaside can have the papers delivered by special horse carriers, thus receiving the mail earlier than if ordered through the mail. Leave your orders and addresses with the local agent.

N. W. SAUNDERS, Santa Monica.
B. O. ANDERSON, San Pedro.
E. J. PRATT, Long Beach.
R. B. HALL, Redondo Beach.
HUNT & HARRITY, Avalon.

A FIVE-DOLLAR PREMIUM.

The Times-Mirror Company offers every person sending one year's subscription to THE DAILY TIMES—\$10 in the city or \$20 by mail, a copy of "THE LOS ANGELES TIMES ATLAS OF THE WORLD,"—uniform with Rand McNally & Co.'s "Standard,"—the most costly and valuable premium ever given for a single newspaper subscription. The same offer is made for five subscriptions to THE WEEKLY MIRROR and \$20 in cash. When the atlas is sent by mail the postage is added. A splendid book of over two hundred large pages, with a double-page map of California.

Call at the counting-room and inspect same before accepting. Ready for delivery to subscribers after August 1st.

THE PRICE OF THE TIMES is five cents per copy, in advance, no matter whether at home or abroad, on railroad trains, in hotels, or elsewhere, are obliged to pay no more for it. Cases of attempted extortion should be reported to this office.

SAN FRANCISCO OFFICE.

The San Francisco office of THE TIMES is at 19 Montgomery street where a copy of the paper can be obtained and news or information may be left or obtained. Col. J. H. Woodard, corresponding in charge.

THE TIMES may also be bought of the Occidental Hotel news stand, San Francisco, for five cents per copy.

The movement on part of the Council to have the railroad companies put their bridges across the river in condition to resist the storms of the coming winter is timely. The Deputy City Engineer says that the bridges are in a worse condition than they were this time last year.

AMERICAN newspaper men have to undergo all sorts of trials and tribulations, but they are free from one which has just befallen the publishers of three newspapers published in the Island of Malta, who have been excommunicated for printing articles abusing the Pope and the Bishop of Malta.

The House Committee on Public Lands has reported a resolution, which was adopted, calling on the Secretary of the Interior to inform the House by what authority and why he has authorized and directed the issue of patents to the Union Pacific Railroad Company for lands granted the company prior to payment of the debt due to the United States from said company; that he also report to the House the amount of land patented or certified to each of the land grant corporations of the Union Pacific Railway system up to this date.

In the Council, yesterday, a resolution was offered, and referred to the special committee on the condition of the streets, to the effect that the Street Superintendent be requested to place a man and cart on Main and Spring streets to clean the streets and gutters on those streets between the Plaza and Fifth street. A recommendation was also read from the Health Officer that the Street Superintendent be instructed to flood the gutters in the center of the town at least once a week, and as many more times as in his judgment is necessary to keep them clean. This was referred to the Board of Public Works. We are glad to see that this important question is being agitated in the Council, and trust that something definite will be done, and that soon.

EX-ASSEMBLYMAN JAMES M. DAMRON has fled, leaving three charges of forgery behind him, the truth of which charges he thus practically acknowledges. He has also left his bondsmen in the lurch. The soundness of the arguments of the legal representative of the people in demanding higher bonds is thus fully proved, also the hollowness of the claims of the absconder's attorney as to the reliance which might be placed on his client's "honor." What remains to be done is to see that the bonds are properly forfeited—that justice in this respect is not once more made a mockery, as it too generally is. It will also be well for voters this fall to carefully scan the character of men whom they send to the Legislature. Law-breakers are not, as a rule, good law-makers.

MORE ABOUT A VALUABLE TREE.

Commenting upon the editorial in yesterday's TIMES on that valuable tree, the Australian black wattle, William S. Lyon, forester of the State Board of Forestry, sends us some further interesting points on the subject, which, he says, will be exhaustively discussed in all its bearings in the forthcoming biennial report of the board.

The ready adaptability of most of the wattle to our soil and climate, and the assured profits to be derived from their cultivation for both tan-bark and fuel, has long been familiar to tree-growers and those interested in enlarging the field of Californian resources. Until the last year a complete embargo was laid upon this industry from the well-known fact that if not the original *radix* of the white cottony scale, the acacias in general were more subject to their attacks than any other plants, not even excepting the citrus family. Large trees were consequently rooted out, and horticulturists properly exerted themselves to discourage their further plantation anywhere. All of this has been revolutionized by the introduction of the scale parasites, which makes possible the revival of an enterprise that gives promise in the near future of yielding more than flattering returns.

Quick to realize the situation, which the control of the scale pest made possible, the State Board of Forestry at once commenced the planting of wattle upon a large scale, and now have growing upon the station grounds at Chico and Santa Monica upward of thirty thousand young trees of most promising varieties of tan-bark wattle, which will be ready for gratuitous distribution in small parcels the coming winter to those desiring to test the merits of these species.

Capt. Merry, it seems, is in error, or is misquoted in assigning the first place in yield of tannic acid to the black wattle. The recent investigations of J. H. Maiden of the Technological Museum of Sydney confirm the earlier reports of Von Mueller, assigning to the bark of the broad leaf, or golden wattle, the astonishing yield of nearly one-half its weight in pure tannic acid. Great difficulty has been also experienced in obtaining reliable seed of true black wattle (*Acacia decurrens*), much of the seed exhibited for sale as such being confounded with other species comparatively inert as producers of tan-bark.

These difficulties are even experienced at home, one correspondent from Rangiriri, New Zealand, citing the case of a government plantation of 1200 acres in its vicinity, originally set out for black wattle, proving at maturity to be the nearly worthless silver wattle. In order that similar vexatious and disheartening results may not follow here, our board has decided to issue no seed of this species until the tests now in operation confirm them in knowing the output to be beyond criticism.

A CONCESSION FROM OUR FRIEND, THE ENEMY.

Our contemporary, the Herald, although sunk in the errors inherent to the party which it represents, is not, like some of its Democratic contemporaries, blind to what is going on on the other side of the political fence. It keeps its weather eye open.

Upon several recent occasions the Herald has expressed its respect for the virility and prospects of the Markham gubernatorial boom. In its yesterday's issue it makes this concession still more plainly in the following language:

The chances that Col. Markham will be the Republican nominee for Governor are constantly improving. The four southernmost counties of the State—Los Angeles, Orange, San Diego and San Bernardino—will go solid for him. His friends declare that since his arrival in San Francisco there seems to have been setting in a strong tide in his favor in the northern part of the State. Hon. W. W. Morrow, his most conspicuous rival, seems to have adopted a fast-and-loose policy in reference to his candidacy, which has greatly weakened his chances. If it is a foregone conclusion that Col. Markham will lead the Republican hosts in November, it behooves the Democracy of California to realize the fact that they have a very serious battle before them. They must cease to talk about "off-years" and "walk-overs." Even a mediocre ticket with Markham at its head is not going to be knocked out by wind; but the most judicious organization and the hardest kind of fighting will be required to carry the day. There is nothing to be gained, but everything to be lost, by belittling the strength of the enemy; and this maxim will have especial significance if Markham sets the Republic a nomination.

It is useless to talk about defeating a ticket headed by Col. Markham with anybody in the Democratic ranks having a standing amongst the people of the State of a grade inferior to his. We must put forward our very best material.

The Herald then proceeds to argue that Mr. Pond is the man whom the Democrats should oppose to Col. Markham if they desire to succeed. The present Mayor of San Francisco is undoubtedly a worthy person, if somewhat lacking in magnetism, but it will not, this year, be the lot of any man belonging to his party to occupy the gubernatorial chair.

MOUNTAIN RESORTS.

A railroad to the summit of Wilson's Peak is almost assured, and it seems that there is also a prospect of the construction of a railroad to Bear Valley, a picturesque spot in the mountains back of San Bernardino, where the great dam is situated which supplies the Riverside colonies with water. There is no reason why we, in this section, should not emulate Switzerland, where there are railroads to a dozen or more mountain peaks above the clouds, where visitors can enjoy the magnificent landscapes spread out before them, inhale the stimulating air of those elevated regions, and, at the same time, have all the comforts of first-class, thoroughly-equipped hotels.

The more attractions of this description which we offer the greater number of the wealthy tourist class may we expect to attract—people who have the world to choose from, and who ask something besides a fine climate. The revenue from this source might be largely increased and would form a very desirable accession to our regular income from products. In this section we have a great advantage over the

Alpine region, for there the mountain season only lasts from four to five months, while in Southern California such roads and resorts would find patronage all the year round.

The committee of arrangements of the N.S.G.W., having in charge the Admission day celebration, has issued a circular announcing that arrangements for the celebration in San Francisco on September 6th, 7th, 8th, 9th and 10th next are assuming definite shape, and the fortieth anniversary of the State's admission into the Union will be celebrated in a fitting manner. The Native Sons of the Golden West, having entered upon the work in a manner that precludes the possibility of anything but success crowning their efforts. The various subordinate committees have made reports to the joint committee, which indicate that the celebrations of the Grand Army of the Republic and the Knights Templar held in San Francisco will be surpassed on Admission day. It is the first time in the history of the State that an attempt has been made to celebrate California's birthday on such an elaborate scale. Native Sons from every section of the State will attend, bringing with them their friends and relatives to enjoy the various entertainments that will be provided during the first and second weeks of September.

AMUSEMENTS.

GRAND OPERA-HOUSE.—After a vacation of two weeks, during which the new managers have had the auditorium and lobbies thoroughly cleaned, painted and renovated, this house was again opened last night for the first performance of Nellie McHenry's melodrama entitled *Lady Peggy*.

The plot of this wonderful piece would take entirely too much space to detail, seeing that it is not constructed with any attempt at consistency, and that the persons are simply shadowy reproductions of well-known types that have done duty in numberless pieces of the same kind before. Suffice it to say that the interest is made to center in a flimsy scheme by which a New York woman, who has been brought up in the refined precincts of a New York mansion, is seduced by a villainous character into the character of a low-down, vulgar, and decidedly unbecoming person. The villainous character is a man who has been brought up in the refined precincts of a New York mansion, and is seduced by a villainous character into the character of a low-down, vulgar, and decidedly unbecoming person.

The lower portion of the house was but only slightly filled, the balcony was, however, quite crowded and the applause from the upper regions was vigorous and emphatic. *Lady Peggy* is a bowery piece, and is judged from the plot of view, a fair success of its kind. The villain was rather deficient in force; he was heavy enough physically, but Mr. Macready only succeeded in putting in the requisite intensity when he gets to the 1st act, and then makes quite a strong point in his demand upon his shrinking feminine confederate to "give up the Jules or I will take it from her." Fortunately she gives up the "Jules" and the audience is spared the infliction of hearing all that the stage villain knows.

One of the most important characters, "Douglas Thorpe," down on the bill for Sydney Ross, was cut out altogether, but the basic nature of the piece was such that John Webster made a fair character sketch out of a dude who has nothing to do with the plot, and Fred E. Queen opened out in the 1st act, his introduced cell-slap dance being a leading feature of his performance, and was escorted with great eclat.

The piece appeared to give entire satisfaction to the large majority of the audience, and the sensation scene of the burning of the house, which was a very fine success of its kind, was honored by a perfect tempest of applause.

Lady Peggy will be repeated tonight.

AMONG THE POLITICIANS.

Elmer Welsh of this place has by no means withdrawn from the County Auditor's fight.—[Haywards Journal.]

The Haywards Journal supports Dr. William Simpson for Senator from the Eighteenth District. The Alameda Argus supports Columbus Bartlett, and the Livermore Herald Valentin Alvizo.

John R. Robinson, manager of the American Standard, has sued the members of the American State Central Committee to recover his salary, amounting to \$1450, of which he says he has not been paid a cent.

Dr. N. Watts, a prominent and wealthy citizen of Chico, who has always taken an active interest in politics, will be a candidate for the Republican nomination for Congress from the Second District, to succeed Maj. Briggs.

Dr. Rowell has received favorable mention from all parts of the Sixth Congress District. He is the first choice of the Republicans of this valley, and is the second choice of the Democrats. He has local favorites whom they are bound to support in the preliminary skirmish.—[Fresno Budget.]

W. H. Bonsall of Los Angeles is announced as a candidate for Railroad Commissioner from this district. Mr. Bonsall is a prominent man in the southern part of the State, is one of the Councilmen of his city, and is generally conceded down there that he would be a strong candidate and an able officer in the event of his success. He is not so well known in this section, but it speaks well for a man to be with honor in his own country.—[Alameda Argus.]

"In a Simerel Situation."
Chances for spinsters like that fore-shadowed in the following advertisement sent to THE TIMES from Seattle do not often occur.

WANTED—A GENTLEMAN OF 35; of means; unmarried; wishes to correspond with a lady of 30, in a similar situation. Address—SEATTLE, Wash.

The Charity Benefit.
The entertainment for the benefit of the charities of the city will come off at Hazard's Pavilion, July 25th and 26th.

The Elder Ashore.
PORT TOWNSEND (Wash.), July 21.—The steamer George W. Elder and the bark Oakland are ashore four miles below Point Wilson and in a dangerous position. Both vessels will be badly damaged from the rocks.

COAST GLEANINGS.

Another Tragedy in Fresno County.

An Oregon Murder Which May Be Followed by a Lynching.

Vacaville Fruit-growers Reaping a Harvest of Gold.

An Arizona Valley Flooded by a Cloudburst—Many Cattle Perish, but No Loss of Human Life.

By Telegraph to The Times.

SAN FRANCISCO, July 21.—[By the Associated Press.] The Chronicle's Fresno special says: Albert Hacker shot and killed Harry Bradway at Dog Creek, this county, this afternoon. The men had a difficulty about the ownership of some government timber land. Hacker went to Bradway's home this afternoon with a Henry rifle to remonstrate with him for cutting some timber. Bradway met him with another Henry rifle. Hacker fired and missed, and Bradway did the same.

Hacker's rifle then refused to work, and he secured a double-barreled shotgun loaded with buckshot, and fired both barrels at Bradway, killing him. Hacker surrendered himself and was jailed. Both men are old residents of the county.

CAUGHT AT LAST.

A Chinaman Arrested for a Murder Committed Three Years Ago.

SACRAMENTO, July 21.—[By the Associated Press.] About three years ago at Courtland a Chinaman named Yan Foo murdered a fellow-countryman named Gum Back Lung, an important personage among Mongolian circles. The murderer escaped and succeeded in eluding the officers. On Saturday the authorities here received information from San Diego that a constable had Yan Foo under arrest. Sheriff Drew went to Courtland yesterday and found evidence available, and accordingly swore to a complaint charging Yan Foo with murder. District Attorney Bruner telegraphed to the San Diego constable to bring up the prisoner.

It seems that Yan Foo and another Chinaman had some trouble in San Diego and Yan Foo caused the other man's arrest, whereupon the latter informed against him.

MAY BE LYNCHED.

A Tragedy in Oregon That Causes Great Excitement.

LINKVILLE (Or.), July 21.—[By the Associated Press.] George Goodlow was shot and instantly killed last evening by John Shook at Dairy, twenty miles east of here. The men had a quarrel about some cattle a few days ago. Goodlow yesterday, while under the influence of liquor, went to Shook's house with a revolver in his hand and he wanted to kill Shook. The latter drew his revolver and the men fired simultaneously, one bullet entering Goodlow's breast just over the heart. He died in a short time. Shook surrendered himself to the Sheriff.

The shooting has caused considerable excitement, and threats of lynching are made by the friends of the dead man.

TO HUNT DOWN APACHES.

Mexican and United States Troops Will Make Common Cause.

TUCSON (Ariz.), July 21.—[By the Associated Press.] The Star's Nogales special says: Gen. Miles had a satisfactory conference here last night with Gov. Corral of Sonora and Fenolio, commandant of the frontier guards. Arrangements were made for mutual support and assistance, in case of Indian outbreaks crossing from one republic to the other, which it is hoped will rid this region of the few remaining outlaws thought to be lurking in the Sierra Azul of old Mexico. Mexican officials are well informed as to the situation, and are disposed to cooperate seriously with the United States authorities.

A CLOUDBURST.

It Causes a Flood in an Arizona Valley.

TUCSON (Ariz.), July 21.—[By the Associated Press.] A cloudburst yesterday in the foothills of the Santa Rita Mountains covered an area of a square mile. The water rushed down the cañon in torrents, drowning a number of cattle and horses. A lot of wild animals, such as deer, bears and wolves, were caught in the flood. The Schofield ranch was completely devastated of crops, orchard and houses. A large freight train was caught in the flow and carried a mile. No lives were lost.

Large Fires Around Grass Valley.

GRASS VALLEY, July 21.—Yesterday at noon a fire broke out in the barn of Mrs. S. W. Piper in Pleasant Valley and destroyed the building and contents. Three valuable horses were burned. The fire spread to the fields and woods of Pleasant Valley, and burned over that fine agricultural section. It is reported that Longridge & Duglass's ranch buildings burned yesterday afternoon. A fire also broke out near the Allison ranch mine. James Looney, aged 70, was burned to death.

Disasters Never Come Singly.

GILROY, July 21.—Just after midnight the house of C. F. Oldham, outside the city limits, was burned to the ground, but few effects being saved. The loss is \$2000, with no insurance. Mr. Oldham nearly lost his life a few months since, being run over by a train, necessitating amputation of his leg.

Gored to Death by a Bull.

TUCSON (Ariz.), July 21.—Yesterday a young Mexican on horseback was attacked by a mad bull at Silver Lake. The horse was gored to death almost instantly. The bull caught the rider as he fell, ripping open his side. He died in a short time from his injuries.

Railway Appointment.

SAN DIEGO, July 21.—H. B. Keeler was today appointed general agent of the Santa Fé in this city, vice H. J. Gleason, resigned. Keeler was formerly agent at Santa Ana.

A GOLDEN CROP.

Vacaville Fruit-growers Reaping Small Fortunes.

VACAVILLE, July 21.—[By the Associated Press.] There is a boom in the dried-fruit market here. On Saturday the price jumped from 13 cents to 15 cents. J. & I. Blum, a local firm, and the buyer for a Chicago house, are taking everything in sight. This price exceeds any ever paid in the State thus early in the season. Winters, twelve miles north, is in the center of an equally good fruit region, but the absence of buyers there makes the ruling prices about 30 per cent. lower than here. At prices now ruling small fortunes await the owners of crops.

Sawmill Burned.

OROVILLE, July 21.—Springer's sawmill, situated on the Quincy road thirty miles from here, together with several hundred thousand feet of lumber and nineteen houses and a large amount of finished stock, was destroyed by fire Saturday afternoon. The fire started from a smokestack. The loss is estimated at \$100,000; insurance unknown.

WASHINGTON NOTES.

GLASS-WORKERS ASK THE PROTECTION OF TARIFF.

Uncle Sam Notified of Another Obstreperous Geyser—Secretary Rusk to Establish the Grades of Grain.

By Telegraph to The Times.

WASHINGTON, July 21.—[By the Associated Press.] This afternoon delegates to the annual convention of the National Glass-blowers' Association, which has been in session at Baltimore, presented to the Senate Committee on Finance a request that the duties laid by the House bill on glass bottles be retained. Their president said that within the past two years there had sprung up competition with foreign importers which the home manufacturer could not meet. The delegation, he said, contained no manufacturers, no one but laborers, and they asked the change in their interest alone.

For the Relief of Settlers.

WASHINGTON, July 21.—The Senate Committee on Public Lands today ordered a favorable report on the House bill to amend the act of June 22, 1874. It extends the privileges granted by that act (subject to the provisions, limitations and restrictions thereof) to all persons entitled to the right of homestead or preemption under the laws of the United States, who have resided upon and improved for five years lands granted to any railroad company, but whose entries or filings have not, from any cause, been admitted to record.

Another Geyser Bursts Forth.

WASHINGTON, July 21.—The Secretary of the Interior today received a telegram from Capt. Boutelle, superintendent of the Yellowstone National Park, stating that the great Excelsior geyser has been in a state of eruption since last Saturday, for the first time in two years. A column of hot water rises from the crater into the air a distance of 300 feet.

Grain Grades to Be Established.

WASHINGTON, July 21.—Representative Comstock of Texas introduced a bill today authorizing the Secretary of Agriculture to establish uniform grades of all kinds of grains transported from one State to another, or to any foreign country, which shall be known as "American grades."

Ordered to Duty.

WASHINGTON, July 21.—Commander Louis Kemf, from the Mare Island Navy-yard, has been ordered to act as member of the Board of Inspection at San Francisco.

In Aid of Irrigation.

WASHINGTON, July 21.—Senator Stewart today introduced a bill granting public lands in Nevada, except mineral lands, to the State, in aid of irrigation.

THE VAN WERT TRAGEDY.

Fireman Roadhouse Confesses Murdering the Engineer.

VAN WERT (O.) July 21.—[By the Associated Press.] Fireman Roadhouse tonight confesses murdering Engineer Vandevender. He said Vandevender had been quarreling with him, and, among other things, accused him of reporting him for drunkenness. When the train neared Van Wert the engineer rushed at Roadhouse with a curse and dealt him a blow on the face, knocking him down and cutting his head. When Roadhouse recovered he picked up a hammer and rained several blows on the engineer's head, killing him. Roadhouse was placed in jail. It is feared he will be lynched.

Died While Homeward Bound.

MARION (Ind.), July 21.—Henry Hunger of San Francisco died on a Panhandle passenger train, this afternoon, between this city and Logansport. Hunger was a native of Finland, and was bound for his native land, having amassed a competence.

TELEGRAPHIC BRIEFS.

The premium on gold at Buenos Ayres is 205 and at Montevideo 130.

Gilbert R. Shaw has been appointed receiver of the Park National Bank of Chicago.

Emin Bey has authorized Dr. Peters to recover the ivory left by Emin at Wadai.

Fire in the Cogswell & Baker block at Tacoma, Wash., yesterday morning caused a loss of \$10,000.

The proprietors of three newspapers published on the Island of Malta have been excommunicated by the Pope.

A meeting of residents of Heligoland yesterday adopted a grateful farewell address to Queen Victoria.

George Hugo, son of Victor Hugo, and Deputy Menier fought a duel at Paris yesterday, with swords. Hugo was slightly wounded.

The Senate Elections Committee considered the Federal Election Bill again yesterday. It is understood that the bill to be reported to the caucus has been about completed.

At San Francisco yesterday, Judge Sawyer fined the Omega Mining Company \$3000 for contempt committed by violating an injunction against hydraulic mining in Placer county.

The verdict of the coroner's jury at Chicago in the matter of the Toga disaster, censures the owners of the vessel for carrying naphtha, and recommends that the shipper of the naphtha, at Buffalo, be indicted.

At a meeting of the Brotherhood of Railway Firemen, at Hartford, Ct., yesterday, resolutions were adopted urging the passage of a law compelling railroads to use automatic brakes and couplers on freight trains; also, pledging members of the order to do all in their power to prevent trainmen working on Sundays.

WORK OF CONGRESS.

The Tariff Debate Begun in the Senate.

Voorhees Leads the Free Traders' Attack on the Measure.

Carnegie's Present to Stanley the Text of a Speech.

Resolutions of Respect to the Memory of Representative Walker of Missouri Adopted in Both Houses.

By Telegraph to The Times.

WASHINGTON (D. C.), July 21.—[By the Associated Press.] Senate.—On motion of Mr. Hoar, the select committee on relations with Canada was authorized to continue investigations during the coming recess and next session.

The House bill to amend the act of June 22, 1874, for relief of settlers on railroad lands, was reported and placed on the calendar.

Mr. Dawes moved to proceed to the consideration of the Indian Appropriation Bill.

Mr. Gray asked him to yield the floor to permit the bill for the transfer of the revenue marine to the naval establishment to be taken up in the morning hour.

Mr. Morrill informed Mr. Dawes that if he did not proceed with the Indian Appropriation Bill, he (Mr. Morrill) would move to proceed with the Tariff Bill.

Mr. Gray remarked that the Senator from Vermont could hardly expect to exclude all other matters that might not have the extent and magnitude of the Tariff Bill. There was no legislation that could be considered by the Senate during the remainder of the session that would not take some of the time for consideration of the Tariff Bill, and he did not think he should proceed at the outset that nothing else should be considered.

Mr. Morrill said it was not his purpose to antagonize particularly the bill of the Senator from Delaware, but he did propose to ask consideration of the Tariff Bill in opposition to any other measure except appropriation bills.

Mr. Gray made a motion to proceed to the consideration of the House bill to transfer the revenue marine service from the Treasury to the Navy Department. Agreed to—yeas, 30; nays, 25. The Republicans who voted for the measure were Messrs. Cameron, Casey, Cullom, Farwell, Frye, Ingalls, Mitchell, Sawyer, Spooner, Teller and Washburn. The Democrats who voted nay were Messrs. Bate, Cockrell, Gorman and Fugh.

The Senate proceeded to consideration of the bill. The bill having been read, the date for appointment of revenue marine officers to be officers of the navy was fixed for January, 1891.

At 2 o'clock the Revenue Marine Bill was laid aside without action, and the Senate proceeded to the consideration of the Tariff Bill. The Senate was addressed by Mr. Voorhees in opposition to it.

has authorized and directed the issue of patents to the Union Pacific Railway Company for lands granted to the company prior to the payment of the debt due to the United States from said company; that he also report to the House the amount of land patented or certified to each of the land grant corporations of the Union Pacific railway system up to this date.

On motion of Mr. Dockery of Missouri, by unanimous consent it was ordered that a vote on the Original Package Bill be taken tomorrow and a vote on the Bankruptcy Bill on Thursday morning.

Mr. Dockery then officially announced the death of Representative James P. Walker, from congestion of the brain, at Dexter, Mo., on Saturday afternoon, and delivered a brief eulogy. Appropriate resolutions were adopted and the House adjourned.

THE LAKE FRONT SITE.

OPPOSITION TO LOCATING THE WORLD'S FAIR ON IT.

Agriculturists Say There Will Not Be Room for Their Display and They May Refuse to Exhibit.

By Telegraph to The Times.

SPRINGFIELD (Ill.), July 21.—[By the Associated Press.] One feature of the special session of the Illinois Legislature will be the aggressive part to be played by the Illinois State Board of Agriculture. A committee from that board will present to the General Assembly the views of agriculturists as to the World's Fair site. It has been known all along that the State board was bitterly opposed to the lake front, holding that no matter how that site may be improved it will be entirely inadequate to accommodate agricultural exhibits such as the occasion will call for.

Secretary Girard said tonight to a press representative: "We insist and every State Board of Horticulture in the Union will insist with us, that the agricultural exhibits must not be embarrassed in such a manner as to impair them. We do not desire to dictate to the directors where they shall hold the fair, but we have a right to insist that the site shall be one that will supply every demand for space. Four hundred acres would not be an excess for the agricultural exhibits of the World's Fair; two hundred acres will be the minimum which will accommodate the States of this Union. California alone asks forty acres for its agriculture, fruit and fairs, and will probably not be satisfied with less than fifteen or twenty. The State of Illinois will want forty. The demands of the State board are to be observed. Other States will want five, ten or fifteen acres each. All old, the States cannot get along with less than two hundred, and it is absolutely impossible to give as this if the lake front is selected as the site. We will positively not be satisfied with a site which places the agricultural exhibit at a disadvantage to other principal features. In my opinion in case the lake front is selected as a site the Illinois Board of Agriculture will drop the subject entirely, and not make any exhibit. Of course, however, if the next regular session of the Legislature makes an appropriation and instructs us to make an exhibit we will carry out the provisions of the law. But in our opinion if the lake front is selected, the agricultural boards of the country will regard the World's Fair in advance as a failure and abstain from any exhibit at all, and the exhibits of the agricultural products of the country."

CHICAGO, July 21.—In the City Council tonight the World's Fair ordinance as amended by the directors was considered, and, after much talk, during which obstructionists were sharply scored by some aldermen, a committee was appointed to confer with the directors and settle upon an ordinance which the Council can pass unanimously, the committee to report on Wednesday evening.

A BAD WRECK.

A Rock Island Express Train Goes Through a Bridge.

CHICAGO, July 21.—[By the Associated Press.] The following report of a wreck has been received at the headquarters of the Rock Island road in this city: The Rock Island express No. 14 went through a bridge about a mile west of Lyman, tonight. The conductor thinks they have found every one except the engineer. One man was badly hurt and several slightly injured. The engine, baggage-car, smoker and chair-car were wrecked. The sleeping-car is all right.

Grain Warehouse Burned.

IRVINGTON, July 21.—Walker's grain warehouse was burned this morning and the contents destroyed. The loss is about \$10,000, insurance \$5500. Farmers lose seven or eight thousand bags of grain. Their insurance is unknown.

A Bather Drowned.

SAN MATEO, July 21.—Charles F. Parker, an upholsterer from San Francisco, was drowned on Sunday afternoon in Donald Slough, near San Mateo, while bathing. He leaves a widow and two children in San Francisco.

Insurance Commission's Report.

SAN FRANCISCO, July 21.—The twenty-third annual report of the Insurance Commission of California has been made. During the year twelve companies were admitted to the State and five discontinued. The amount of fire insurance written was \$352,179,623; premiums, \$6,158,755; losses, \$2,572,002; amount of marine insurance, \$141,015,459; premiums, \$1,602,434; losses, \$326,812. The number of life policies written was 1102; amounting to \$22,094,645; premiums, \$979,544; losses and endowments paid, \$1,545,493.

Terrible Powder Explosion.

INDIANAPOLIS, July 21.—A special to the Sentinel from Portland, Ind., says: A terrible explosion of powder occurred at Red Keys this afternoon, completely demolishing Carrels & Horn's grocery and injuring eight persons, one of whom cannot live. The explosion was caused by a man lighting fireworks which threw sparks into a can of powder.

REPUBLICS AT WAR.

The Recent Battle in Central America.

Guatemalans Preparing to Invade San Salvador Again.

If She Does Mexico Will Send a Force Against Her.

France Again Much Exercised Over Legislation in the United States—The Silver Problem in England, Etc.

By Telegraph to The Times.

NEW YORK, July 21.—[By the Associated Press.] The Herald says: Private dispatches announce that the war between San Salvador and Guatemala was precipitated by the final refusal of the latter to consent to the union of the five States so long talked of. The invasion of San Salvador by the Guatemalans was met by Gen. Ezeta with his command, and greatly to the chagrin of the Guatemalans' commander they were routed. So far as was learned forty were killed. The Guatemalans have received reinforcements and will return to the charge soon.

Honduras is allied with Guatemala, while Nicaragua and Costa Rica, for prudential reasons, have allied themselves with San Salvador.

Mexico, it is stated, has concentrated troops on the Guatemalan frontier in the state of Chiapas, and orders have been given the commanders to invade Guatemalan territory in case Guatemala invades San Salvador.

Gen. Ezeta, provisional President of San Salvador, has dispatched a special envoy to the United States with a manifesto as to his programme toward the people of San Salvador. Guatemala will appeal to the United States for protection against Mexican interference.

BELGIUM CELEBRATES.

The Anniversary of Independence Observed.

BRUSSELS, July 21.—[By Cable and Associated Press.] The sixtieth anniversary of Belgian independence and the twenty-fifth year of the reign of King Leopold was observed today with a *te deum* service in the cathedral in the presence of members of the royal family, cabinet ministers, foreign diplomatic representatives and members of the Senate and Chamber of Representatives. Afterward a reception was held at the palace.

In responding to an address from the Senate King Leopold referred to the work of Belgium in Africa as receiving an impetus through the decision of the anti-slavery conference. Belgium had taken a great part in the vast enterprise, and he hoped she would take still a greater part in the future. The object of his life was to render the country beautiful, strong and happy.

In responding to an address from the Chamber of Representatives the King said he deemed the time opportune to assign Belgium his African possessions after the expiration of ten years, which period was necessary to consolidate the Congo State. In the event of his death Belgium, his heir, would surely never wish to diminish the extent or importance of her new possessions.

FROM THE ANTIPODES.

New Zealand's Position as to Subsidies and the World's Fair.

SAN FRANCISCO, July 21.—[By the Associated Press.] R. J. Creighton, agent of the New Zealand Government, today received a cable dispatch from the Postmaster-General of New Zealand asking if the United States Congress had passed the shipping bills. Parliament will be prorogued this month and the Postmaster-General has announced that New Zealand will follow the action of New South Wales and withdraw from the ocean mail service between Australia and the United States, unless Congress takes action at once toward contributing a substantial amount of the steamship subsidy. The New Zealand Government is at present the only Australian Government assisting to maintain the service.

Mr. Creighton has also received a reply to his letter recommending that New Zealand be fully represented at the World's Fair at Chicago. The subject will be brought up before the New Zealand Cabinet. Leading newspapers of the capital recommend an appropriation for the purpose of not less than £2500.

FRENCHMEN DISTURBED.

American Legislation Which Irritates the Gauls.

PARIS, July 21.—[By Cable and Associated Press.] In the Deputies today, Ribot, Minister of Foreign Affairs, replying to an interpellation in regard to negotiations with the powers relative to the American Customs Administrative Bill, said the government had been in negotiation with other European powers with the object of trying to concert collective action against the bill. The other powers, he

The Druggists

In Lowell, Mass., agree in saying that they sell more of Hood's Sarsaparilla than of all other blood purifiers. For instance: F. C. Goodale: I sell more of Hood's Sarsaparilla than all other blood purifiers.

A. W. DOW & CO.: Hood's takes the lead of all other sarsaparillas.

C. F. BLANCHARD: We sell more of Hood's Sarsaparilla than of any similar.

MARTON & SHAW: With us the sale of Hood's is better of any other kind.

F. & E. BAILEY & CO.: Hood's Sarsaparilla is one of the best medicines.

CARLTON & HOVEY: Hood's Sarsaparilla is one of the best medicines we have. Its sale increases every year.

F. P. MOODY: We sell twice as much of Hood's Sarsaparilla as of anything similar.

C. A. SWAN: Hood's is the most popular sarsaparilla of the day.

THIRTY OTHER druggists speak similarly.

This popularity at home, where Hood's Sarsaparilla and its proprietors have been known for many years, could not continue if the medicine did not possess merit. And these facts should certainly convince people in other sections of the country that Hood's Sarsaparilla is a good, reliable medicine.

Hood's Sarsaparilla

Sold by druggists. At 61c per box. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

said, were averse to entering into any engagements in connection with the matter. Ribot declared that he feared further action would defeat its own object.

Mr. Dupuy hoped Ribot would strenuously try to secure from the United States Government a moderate application of the provisions of the bill. In any case, he declared, the French Customs Committee knows now what course to adopt.

OTHER FOREIGN NEWS.

The Story of Fighting in Central America Denied.

PARIS, July 21.—[By Cable and Associated Press.] The Guatemalan Minister here, referring to reports from Mexico that war had broken out between Guatemala and San Salvador, says the telegrams from Mexico are incorrect. War has not been declared, he says, and no Guatemalan troops have crossed the frontier of San Salvador. It is the Minister's opinion that the fighting referred to in the dispatches must have occurred in the interior of San Salvador between factions in that country.

SILVER QUESTION IN ENGLAND.

LONDON, July 21.—In the Commons today William Gladstone in view of the marked influence of American legislation regarding silver on the price of that metal in London, that steps be taken by the government to secure a full supply for mintage purposes.

Goschen, Chancellor of the Exchequer, in reply to William Gladstone said the mint does not speculate in silver. It must be the subject of reasonable foresight according to its requirements.

NAT GOODWIN'S LATEST SUCCESS.

LONDON, July 21.—Nat Goodwin produced *A Gold Mine* at the Gaiety Theatre this evening. The audience was a brilliant one. The play met a favorable reception. Goodwin was recalled several times and made a felicitous speech.

THE TORY PROGRAMME.

LONDON, July 21.—Smith announced in the Commons this evening that the government would introduce the Tithes and Irish Land Purchase bills early in the next session.

STANLEY RECOVERED.

Stanley has recovered from his illness.

Suicide at Phoenix.

PHOENIX (Ariz.), July 21.—Mrs. Mary Bradbury, the handsome wife of a saloon keeper, died this evening from a nose of rough on rats. She was aged 32. The family came here from Fort Smith, Ark., about a year ago, and is charged her husband had been somewhat inconstant to his marriage vows. Last night his wife took poison to scare her husband, but help came too late to save her. She leaves two children.

How to Cure Alfalfa.

[Ira W. Adams in Pacific Ruralist.]

Some writers on alfalfa will say: "Put it into your barn almost as soon as it cuts; no danger of spoiling." This is bad advice for my personal knowledge. I cut about eight hundred pounds just before our first rain, October 7th. Seeing there were signs of a storm, although my alfalfa was not more than one-third cured, I put it into my barn, shaking every forkful so as to have it lay lightly as possible. I also scattered fine salt over it pretty freely. Having my doubts as to its keeping in good condition, I examined it in a day or two and found it quite musty and very hot, and greatly fearing a spontaneous combustion, I immediately took it out, but much of it was entirely spoiled.

The manner of curing depends entirely on the time of cutting. My mode is as follows: In very hot weather, if cut early in the morning, I rake it into light windrows in the afternoon, or as soon as it gets thoroughly wilted. This will generally be in a few hours, unless the crop is very heavy. The next day, as soon as the dew is off, I put it into small cocks, not over one hundred pounds each, and shake it up well while making the cocks as light and as high as possible. In this way the hot air circulates through it, and it very gradually settles as well.

as cures in the best manner, being almost as green when dry as before being cut. If cut very early in the spring or late in the fall, much more time is required in curing, but never cures it when it feels heavy, even in hot weather, as some of the bottom of the cocks will be sure to be mouldy. Haul it to your barn three or four days after being cured, especially in hot weather. Salt it quite freely, and you will have alfalfa of the first quality, and your horses and cows will think Christmas has come.

A Productive Ranch.

The celebrated ranch owned by Ellwood Cooper, near Santa Barbara, is thus described by the San Diego Sun: "He has on 450 acres of this ranch 150,000 eucalyptus trees, thirty-five different varieties in all, and has the largest olive orchard in the United States, 75,000 trees, and it pays. His orchard this year will yield 25,000 quart bottles of oil, which he sells for \$15 a dozen bottles, and cannot supply the demand. None of this, it is needless to say, finds its way into the local market. It is too expensive. He has, in addition to the above, and all on the 450 acres, remember, 10,000 almond trees, 4500 Japanese persimmons, 6000 English walnuts and 600 orange and lemon trees; and besides that, samples of about every variety of tree or flower grown in the tropical or temperate zones. His wife has at least one thousand different varieties of flowering plants and trees in her garden. The ranch is largely located in a valley with live oak and sycamore trees, one of the latter being twenty-seven feet in circumference.

Ornamental Grasses in California.

(California Fruit Grower.)

Nearly all of the ornamental grasses grow to perfection in California, and some of them, such as pampas plumes, are shipped to Germany and England, and after being dyed in the former country, are made up into various bouquets and designs upon cards and shipped back to the United States and sold in large quantities. Every year hundreds of dollars' worth of these stained grasses, such as can originally be found growing in our gardens, are brought to San Francisco from Europe and sold at highly remunerative prices.

At the College of Letters, Pacific

Beach, of which Prof. F. P. Davidson has assumed supervision, a shorter two years' course in English will be arranged, for which diploma will be given. A botanical garden for the study of plants is projected, and C. R. Ornduff's West American Scientist will be made a college paper with some slight modifications.—[San Diego Union.]

Penny Wisdom—Pound Folly.

It is foolish to save the little that SOZODONT costs, and suffer what will result in large and large payments to dentists. Place a bottle of it on the toilet, use five drops only of it every time after eating, cleanse the mouth, and show your wisdom.

Medical

CATARH.

Throat Diseases, Asthma, Bronchitis and Consumption successfully treated by

M. HILTON WILLIAMS, M.D.

M. C. P. S. O.

By his Medicated Inhalations and Compound Oxygen Treatment.

Probably no system of practice ever employed has been so successful in the treatment of that introduced by Dr. Williams for the cure of Catarrh, Throat Diseases, Bronchitis, Asthma and Consumption.

CATARH.

Catarrh is often regarded by the patient as a cold in the head, and he often expresses his astonishment at his remarkable tendency to contract a cold. Indeed he declares that he is scarcely free from one cold before he contracts another, and he is always exceedingly careful. It is also a matter of surprise to him that the cold always seems to settle in the throat, and he is often told that he has a cold in the throat.

At times many of the symptoms of catarrh seem to abate, and the patient is led to hope that the disease is about to wear itself out, and that the cold always seems to settle in the throat, and he is often told that he has a cold in the throat.

CONSULT YOUR PHYSICIAN concerning the merits of Highland Unsweetened Condensed Milk as a food for infants.

W. B. TULLIS, watchmaker, 422 South Spring street. Watches cleaned for \$1.50.

THE PEOPLE'S STORE.

THE FAMOUS NIMBLE 9-CENT CONTINUOUS.
Surging Crowds Thronged Our Busy Mart and Made a Success of Our Specialties—Read the List.

PEOPLE'S STORE,
TUESDAY, July 22, 1890.

We will today again our nimble 9-cent sale continue. We think it wise, and thinking so, we act upon the impulse speedily. That many people come from far to this gigantic sale was well attested by the surging crowds that thronged our busy mart. So, then, today again, all you people that lots would wish for next to naught will find us ready to serve efficiently the largest concourse. 'Tis not our way, as a usual rule, these sales to future days prolong, but this has merit in it, and being so, we want the cheer of approbation high into the air to ring, showing that what is said is very true.

Among the further things that we today show are bargains rare in Pasadena; the frames are strong and true, while the coverings of the famous fibered silk pongee are made, being, as we all do know, a thing of beauty. The prices on these wares are lacked most frightfully, but in our zealous manner after trade, no notice do we take thereof.

Pongee silk Parasols, \$1.75; silk lined. Pongee silk Parasols, \$2.75; lace trimmed and silk lined.
Silk pongee Parasols, \$1.75; this is a special for three days only, being the best of pongee silk lined with silk and the latest canopy top; we have reduced this line from \$3.50 each.

Lace trimmed silk pongee Parasols, \$2.75. Handsome dress Parasols trimmed with 5-inch pure lace to match, and silk lining. We offer you today our 15 Parasols for \$2.75.

Continuance of Our Men's Suit Sale.
\$4.44 Suits.
\$6.66 Suits.
\$7.77 Suits.
\$8.88 Suits.

For one day more, and no longer, we continue this great sale. Over one hundred suits sold in two days, and only a few left of the original lines. We were compelled to take them out of our window to complete sizes. But for this day we have selected more costly and much handsomer suits for the same price. Remember for this day only.

Boys' Jersey Suits, \$1.98.—Something very dresy with pleated backs and fronts; we reduce them to \$1.98 for they have never been sold under \$3.

Men's cassimere Pants, \$2.49.
Men's Jersey Shirts, 98c.

A nobby line of Brown's blues and gables, rich lace fronts; reduced for this day from \$1.75 each.

Men's silk Ties, 15c; reduced from 35c.

Men's Hat Department.
Engineers' Caps, 19c; made of canvas, with green lining, and sold by every one at 55c.

Boys' cloth Caps, 35c; the nobby style and the most serviceable of all hats; reduced from 75c.

Men's straw Hats, 50c; we'll close 'em all out today; they are the popular lines; sold all over at 75c.

Shoe Department.
We offer you today some of our best values in our establishment. Ladies' canvas Shoes, \$1.25 a pair; full leather trimmings; and reduced from \$2.

Ladies' dress Shoes, \$1.98 a pair; solid sole leather throughout; every pair warranted a perfect fit; in either common sense or opera toe last; no shoe its equal at \$1.98 a pair.

Men's wigwam Slippers, 49c; we have men in large sizes only, and worth \$1.80 a pair.

Men's fine calf Shoes, \$2.49 a pair; this line comprises our popular \$3.50 to \$4.00 line of Shoes, which we aim to close out.

Press Goods Department.
A few extra specials for today; they are supreme and deserve your attention.
Thirty-six-inch plain or fancy Worsted Suits, 15c; reduced from 25c.
Twenty-four-inch wool Cheviots, 15c yard; the latest novel patterns; worth 35c yard.
Thirty-eight-inch wool striped flannel Suits, 25c; all new shades; worth 60c yard.

Forty-inch all-wool black Cashmere, 40c yard; can't touch it elsewhere under 75c.

Black and white summer Silks, 35c; regular price 75c.

Extra heavy black surah Silk, 50c; reduced from 85c.
